PROFESSIONAL SUMMARY

iOS Developer with 3+ years of experience shipping reliable, user-focused mobile products. I build end-to-end features with Swift, SwiftUI, RxSwift, and MVVM/Clean Architecture—from API integration and polished UI implementation to testing, code review, and CI/CD delivery. Currently working on high-traffic applications at BABEL in Spain, with experience modernising and maintaining Objective-C codebases.

WORK EXPERIENCE

Software Engineer Mobile · Babel Group · Casablanca, Morocco Apr 2025 – Present

- ▶ Delivered end-to-end iOS features, from technical specification through production release
- ▶ Built reusable, accessible UIKit/SwiftUI components using Auto Layout and theming
- ▶ Applied MVVM/Clean Architecture and RxSwift for robust state management, validation, and error handling
- ▶ Integrated REST/JSON APIs, caching, deep links, navigation, and WebView content; ensured quality through testing, reviews, and static analysis

iOS Mobile Developer · Mobiblanc Group · Casablanca, Morocco Mar 2023 – Apr 2025

- ▶ Maintained and enhanced multiple iOS applications for Orange, My2M, BMCE Group, and Moov Money across several release versions
- ▶ Delivered new features, reusable UIKit interfaces, and REST/web-service integrations using Swift and Objective-C
- ▶ Collaborated with cross-functional teams to resolve production issues and strengthen application security
- ▶ Managed end-to-end App Store releases, including builds, TestFlight distribution, publishing, and updates

Full-Stack Developer · Netover Technologie · Casablanca, Morocco Jan 2023 – Mar 2023

- ▶ Built full-stack business applications with WinDev RAD and WLanguage
- ▶ Developed backend logic, database integrations (SQL Server/MySQL), and RESTful APIs

Full-Stack Developer · BPS Maroc · Casablanca, Morocco May 2021 – Sep 2021

- ▶ Developed inventory, sales, and customer-management modules for a business system
- ▶ Automated administrative workflows, created test plans, and built PHP web services
